## Uniquely Seattle! Amazon Spheres, Starbuck's Headquarters and Smith Tower

July 19, 2025

**\$119.00**

Includes: Transportation, Special Visits, and Guided Tours (Limited to first 20 booked)

Start at Starbucks's unique Roastery at their headquarters in the old Sears Building in Sodo, where you can purchase hand-crafted coffee drinks and freshly baked pastries. The Spheres—three conjoined glass bubbles—provide the company's employees with a cloud forest and five levels of unorthodox workspaces. On the self-guided tour (bring your smartphone), stroll through a lush green habitat of more than 40,000 plants, including two densely verdant living walls.

Prepare to be wowed on a historical adventure through Smith Tower's captivating past. On a guided tour, meet colorful characters and hear some scandalous stories while getting the inside scoop on Smith Tower's fascinating history. This tour covers everything from bootlegging to broadcasting, from the first floor to the amazing views from the 35th.

Lunch is on your own at the Irish Pub, with wonderful specials—from fish and chips to a Reuben sandwich—for just \$12.99. Our first departure in March sold out. This is your chance!
